I'm "In vitro," She's "In vivo"

It's nearly Valentine's Day. What a perfect opportunity to introduce the campus to two sisters who really put their "hearts" into their work.

They're known as the "Drs. Engler" in the School of Nursing's Department of Physiological Nursing. Their names are Mary and Marguerite Engler, and they have a lot in common.

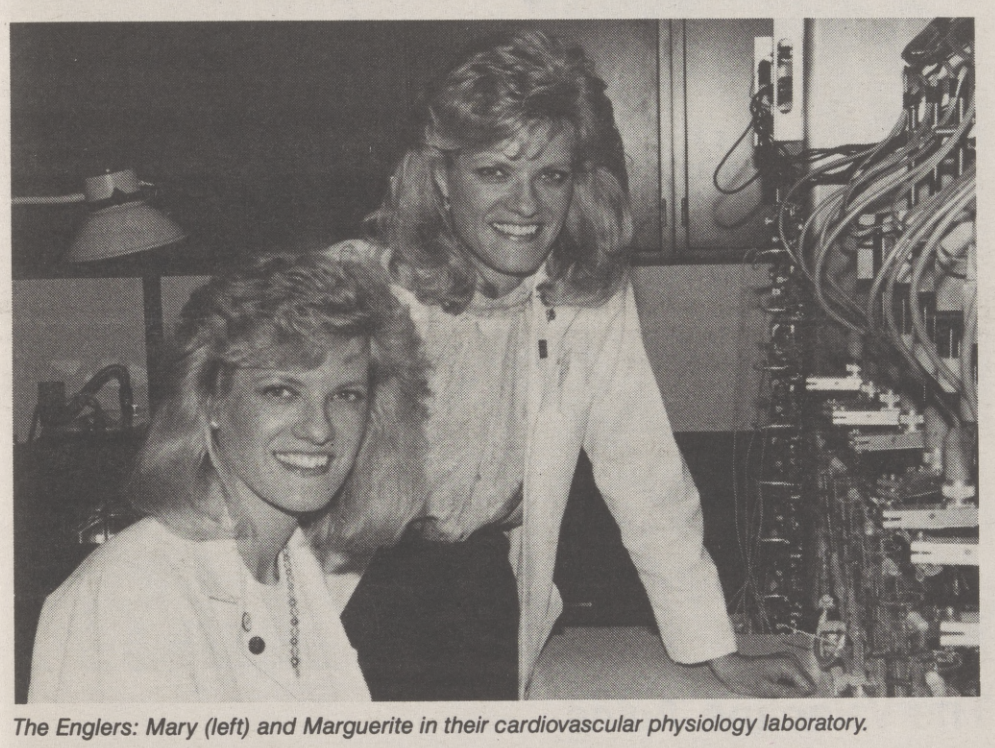
Both have undergraduate degrees in nursing, biology and physiology, both received their PhDs in physiology from Georgetown University the same year, both were clinical nurses at the National Heart Lung & Blood Instiute for eight years, and both came to UCSF in 1988 and now are assistant professors teaching physiology courses to graduate nursing students. They share a laboratory for cardiovascular research, and they look alike. In fact, they're identical twins.

While they're both involved in cardiovascular research, Mary and Marguerite concentrate on independent areas.

Mary studies fish oils. The link between fish oil consumption and cardiovascular health made her wonder about the direct effect of fish oil on vascular tissue. If you put the fish oil directly on a blood vessel, what would happen?

In earlier studies, she found that it relaxes the vessel, which may partially explain the

(continued on page 2)



The Englers: Mary (left) and Marguerite in their cardiovascular physiology laboratory.

Nancy Byl, director of the new joint PT program (far right), watches as Glen Appell of Richmond demonstrates a finger pressure problem he is having, while physical therapy student Kristin Freedman of New York takes mental notes.

First Joint Master's Program Between UCSF and SF State

Our campus and San Francisco State will begin in June a new joint master's program in physical therapy, making it the first joint master's program between the California State University system and the UC system.

"The new program will help us meet the needs of the community, a mission of the CSU system, and provide medical training, a role of the UC system," explains Nancy Byl, director of the physical therapy curriculum at UCSF, who will serve as the first chair of the new joint program.

The program was created to fill a growing need for physical therapists in leadership roles, such as clinicians, clinical researchers and rehabilitation managers, according to Roberta Bennett, professor of physical education at State and acting director of the program.

The program will be the only state-supported physical therapy program in all of Northern Californa. It will admit only 32 students a year, who will take 27 months, including three summer quarters, to complete the program. Students will take courses on both campuses in subjects ranging from clinical kinesiology—the study of body motion—to scientific theory and research methods. The students, once completing the program, will receive certification as physical therapists and become eligible to take the California State licensing examination.

At State the program will be under the School of Health, Physical Education and Recreation-Leisure Studies. On our campus it will be under the Graduate Division and the School of Medicine.

For further information on the program call the UCSF Physical Therapy Curriculum Department at x62093.

Schroeder to Head RWJ Foundation

Steven A. Schroeder, who has been on the campus faculty for some 14 years, soon will leave to become president of the Robert Wood Johnson Foundation, July 1.

"Steve Schroeder is one of the country's best thinkers and true visionaries concerning the future of health care in the US," said Sidney F. Wentz, chair of the Foundation's board of trustees.

The Robert Wood Johnson Foundation—based in Princeton, NJ—is the largest US philanthropy focused on health care. It ranks among the top six private foundations in terms of assets.

A professor of medicine and member of the Institute for Health Policy Studies, Schroeder throughout his career has had an active interest in health policy, especially concerning the quality and cost of care, and issues involving public health. His numerous studies include health economics, cost containment, use of medical technology, physician use of medical services, physician reimbursement, terminal illness, care for the elderly, and health manpower, especially in primary care.

Thanks to Schroeder, our Division of General Internal Medicine has become one of the nation's premier centers for education, patient care and clinical research, explains Lloyd H. Smith, associate dean of the School of Medicine. "In addition, he has simultaneously become a national leader in all issues relating to the more equitable and effective delivery of health care . . . we shall miss him deeply."

Schroeder

Gladstone's 10th Anniversary

Members of the Gladstone Foundation Laboratories for Cardiovascular Disease are finalizing plans for their big 10th anniversary celebration on Monday and Tuesday, March 5 and 6. Highlights of the two-day event will be a full-day scientific symposium on March 5 in Cole Hall featuring Gladstone scientists and 1985 Nobel laureates Joseph L. Goldstein and Michael S. Brown. An invitational dinner will be held that evening at the de Young. The following day, there will be a morning guest lecturer to deliver grand rounds, and an afternoon alumni symposium, both at SFGH, followed by an alumni dinner. See the next issue of *Newsbreak* for full details.

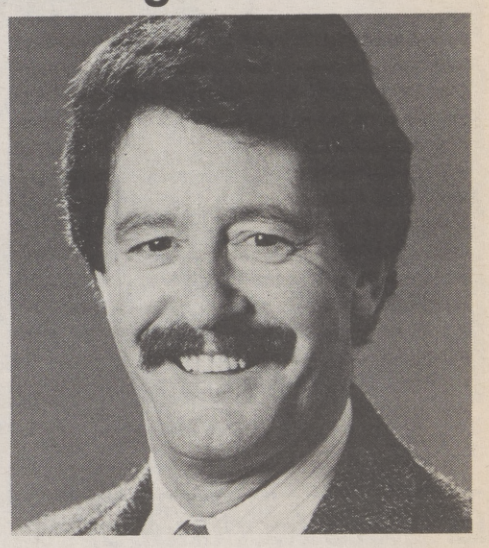
Brody Heads New Dental Program

Harvey A. Brody, clinical professor of stomatology, has been appointed director of a new School of Dentistry program called Advanced Education in General Dentistry. The program prepares dentists to meet today's complex oral disease patterns, and helps them to serve as leaders in general dentistry, especially in the areas of geriatric dentistry, oral medicine, TMJ and dental treatment for the medically compromised patient.

Brody was selected to head the new program following a nine-month national search. He obtained a BA from UC Berkeley and a DDS from UCSF before joining UCSF as a clinical instructor in oral medicine in 1964.

Since 1971 he has been chief of Mount Zion's dental department, where he developed an outstanding general practice residency program. Having received an MA in education from San Francisco State in 1972, he served as associate director of Mount Zion's medical education from 1984 to 1989.

Former president of the American Association of Hospital Dentists, Brody in 1986 was a member of the National Merit Review Committee for funding of advanced programs in general dentistry for the Public Health Service and treasurer of Mount Zion's medical board. In 1989 he chaired the board of directors of the national Federation of Special Care Organizations, and currently is president.



Brody

Hot Chili Peppers and Your Health

UCSF researchers have found that the burning ingredient in chili peppers—called capsaicin—has some interesting and surprising effects on your health.

- In one study, neuroimmunologists have found that the chemical can help protect mice from infection with the herpes virus by interfering with the function of specific nerve fibers and neurotransmitters. In addition, eyedrops containing capsaicin can prevent flareups of latent herpes eye infections in mice for up to two months.

The findings already are helping uncover

Community Dental Clinics Celebration

To help celebrate their 10th anniversary and UCSF's 125th, the Community Dental Clinics at 100 Buchanan Street and in Building 20 at SFGH are offering dental examinations at no charge to specific Bay Area populations on particular days. The celebration kickoff will be on Friday, February 16, which has been set aside as the day for all UCSF faculty, staff and students at SFGH, CED and 20th & Harrison to take advantage of the offer.

Since 1980, the two Community Dental Clinics have had some 220,000 patient visits, with UCSF faculty and senior dental students providing experienced care in all areas of dentistry. The Buchanan Street Clinic is directed by Thomas Dembski, while the SFGH Clinic is directed by Nelson Artiga.

For an appointment call the SFGH Clinic at x65692 or the Buchanan Clinic at x65608. Other screening dates for targeted communities still are being determined.

Randolph Falk

A Big Car for a Big Library

Long-time donor William Fife has given generously to UCSF over the last 20 years. His latest gift, however, is a real classic. It's a 1963 Cadillac, donated in memory of his aunt and uncle Dr. and Mrs. Joseph Fife. The car soon will be part of an America West Auction, reserved for classic and vintage cars, with proceeds going toward our new library. Auctioneers Kenton Merrihew and Harvey Veon (on left bumper) have donated their commission, so the car will be run through the auction free of charge. Lounging on the right bumper are Janet Murphy, UCSF Foundation manager; and Caleb Rick, director of UCSF Planned Giving. For further information on the car (a sandmist gold Coup de Ville, two-door hardtop with leather upholstery) or the auction, call the UCSF Foundation at x63945.

Neurosurgery's "Glastnostite"

What started as a simple lead from a friend's friend, has turned into a 10-month tour of three of the Soviet Union's southern republics for UCSF's Lydia Moskwin.

An administrative assistant in neurosugery for the past 10 years, Lydia will join 24 other people from around the US to be part of "Design USA," an exhibit sponsored by the United States Information Agency (USIA) beginning February 19.

Lydia, who is fluent in Russian, explains, "Ya beru computeri v Sovetskii Soyuz," which literally means, "I am taking computers to the Soviet Union." Lydia has been selected to be part of this traveling troup because of her knowledge of computers, particularly graphics work.

The exhibit, meant for the general Soviet population, will display approximately 100 different kinds of products, all showing the US's advanced technology. "The exhibit will go the gamut," Lydia says, "from a full scale model of a kitchen to a cherry-red Corvette."

"This is exciting," says Lydia, "but there is some danger because we're going to areas of recent turmoil—Moldavia, Azerbaijan and Tadzhik."

Lydia's knowledge of computers and Russian is no accident. She has a BS in both Russian and in business information systems. And her homelife had, and still has, much Russian influence.

Lydia's father, who died just a few weeks ago, had lived in the Soviet Union. In fact, his entire family still lives in Moscow. In the early 1940s, with the German army on the march, he was captured by the Germans and put in a labor camp. He eventually escaped, and was picked up by American MPs. He then worked in Germany for the US Army translating Russian. He came to the US in 1951.

Lydia's mother, Katherine, also is Russian, but was born in Peking. She and her family used China as their escape route. She eventually entered the US in 1949.

The name Katherine Moskwin is not new to this campus, nor to neurosurgery, where she has been a medical transcriber for the past 11 years.

And Lydia and Katherine are not the only Moskwins working in neurosurgery. For the past year, Lydia has been job-sharing with her sister Tanya, working alternate days as AAs in the department. Both Lydia and Tanya are going to school part-time, Lydia to gain her high school teaching credential, and Tanya her degree in fashion merchandising.

After the 10-months Lydia will take some time off, five weeks to be exact, to visit her father's relatives in Moscow. "I can't wait to see all the people my father always thought I looked so much like," says Lydia.

Then it's back to UCSF in November.

Lydia (center) with her mom and sister Tanya at her going-away party sponsored by neurosurgery.

The Valentine Twins

Even though these two cuties were born two weeks before Valentine's Day, we decided to call them our Valentine Twins anyway. Born on 15 Long, these identicals belong to Solomon and Ganet Mulugeta. Solomon, the campus vanpool maintenance coordinator, has been at UCSF since 1983. Ganet, a clerk in the Millberry Bookstore, has been here since 1985. Originally from Ethiopia, these proud parents have been in the US since 1981. Weighing in at a whopping eight pounds each are Mimi (in Mom's arms) and Lilly (in Dad's). Solomon and Ganet say they have a future plan: twin boys!

Ben Schard

Englers *(continued)*

effects of fish oil consumption in lowering blood pressure. Now she's examining the phenomenon more closely. She's making good headway, she says, looking at the separate effects of the fatty acids that make up the fish oils, and finding out what happens to produce this relaxation effect.

Marguerite, on the other hand, also studies fatty acids, but not specifically fish oil components. In her case, it began with the question of what would happen if polyunsaturated fatty acids were taken into the diet of a person who consumes large amounts of alcohol. She discovered that a specific kind—an omega-6 fatty acid—can actually reverse the effects of alcohol. Now she's focusing on omega-6 to see how it can tie in with cardiovascular disease prevention or intervention.

"You can tell us apart by the fact that I'm 'in vitro' and Marguerite's 'in vivo'," says Mary, referring to the look-alikes' respective methods of research. Mary studies tissue in a petri dish (in vitro—literally "in glass"), while Marguerite studies animals (i.e., "in vivo") which are on specially formulated diets.

The Englers share the research goal of finding ways that changes in diet can help prevent cardiovascular disease. They are staunch believers in nurses as researchers. "Years of training and experience have made nurses very astute observers and experts in clinical practice," explains Marguerite. "Therefore, nurses are in an excellent position to make changes in treatment and practice."

Sickle Cell Center to Oversee Screening in Northern California Counties

This month it becomes mandatory throughout California to screen all newborns for sickle cell disease, the sometimes fatal hereditary condition.

The Northern California Sickle Cell Center at SFGH, which is staffed by UCSF faculty, has been chosen to oversee follow-up for all sickle cell screening in the coastal regions of Northern California, from the Oregon border to the Peninsula.

"We now are in the process of alerting all hospitals in the area, as well as the professional community and the public at large of the new law," says genetic counselor Kurt Fenolio of the Center. Fenolio and staff are explaining to hospitals how the State's initial screening program will aid infants with the disease, and how the Sickle Cell Center's follow-up screening for families works.

While the disorder affects primarily blacks, it also has been diagnosed in many other ethnic groups including people of Mediterranean, East Indian, Middle Eastern, Latin American and Caribbean descent.

It is estimated that one black person in 10 can be a carrier of the trait without ever developing symptoms. The disease itself strikes one black child in every 400. Early diagnosis and treatment have been shown to cut dramatically the mortality rate from the disease.

For further information call the Northern California Sickle Cell Center at 821-5169.

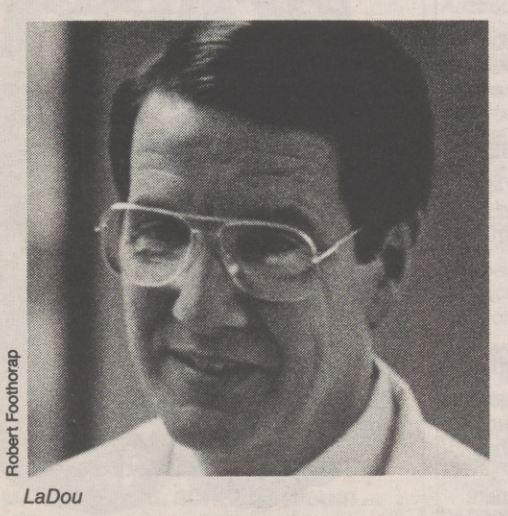
Honors & Awards

Randolph Falk

Hunt

Thomas K. Hunt, professor, surgery: Elected first president of the Wound Healing Society, an international organization formed to share and develop information on this rapidly expanding area of interest.



Robert Foothorap

LaDou

Joseph LaDou, clinical professor, medicine; chair, occupational & environmental medicine: Chosen as a member of the Council of Fellows of the Collegium Ramazzini, Institute of Oncology, Bologna, Italy, for his contributions to occupational and environmental health.

Ron Scherl

Goldfine

Ira D. Goldfine, professor, medicine & physiology: Invited speaker of the Insulin Study Group in Tokyo where he lectured on "Monoclonal Antibodies and Insulin Receptor Mutants as Probes of Insulin Action," Jan. 13.

Carrillo

Carmen Carrillo, assistant clinical professor, psychiatry: Recognized by the National Women's Political Caucus for her many contributions and selfless efforts to the women of San Francisco; elected director of the boards of Narcotics Education League in Alameda County and the Women's Institute for Mental Health in San Francisco. Carrillo also recently returned from Moscow where she was a delegate to the Global Forum on Environment and Development for Human Survival.

Clark

M. Margaret Clark, professor, medical anthropology & epidemiology & biostatistics: Awarded the Distinguished Mentorship Award in Behavioral & Social Science by the Gerontological Society of America; appointed to the National Fellowship Advisory Board of the Brookdale Foundation of New York, a program for training new leaders in geronotology and geriatrics.

In Memoriam

Mark Ryan, program representative, UCSF AIDS Health Project. Ryan came to UCSF in 1988 from the San Francisco office of the National Council on Alcoholism to educate health professionals about the risks of HIV disease to alcoholics and substance abusers. Considered by his colleagues to be a remarkably talented educator, he traveled around California to train health and mental health professionals on the psychosocial aspects of HIV.

Paul Fusco

LaVail

Matthew M. LaVail, professor & vice chair, anatomy; professor, ophthalmology: Elected vice president of the International Society for Eye Research for his contributions to the study of inherited retinal degenerations.

Morris

MacDonald Morris, postdoctoral fellow, pharmaceutical chemistry: Awarded a $69,000 fellowship from the American Cancer Society to work in the lab of Fred Cohen on "Growth Regulating Proteins: Mathematical Methods for Investigating Three-Dimensional Structure."

Leone Returns Feb. 21

Lucile P. Leone, one of the nursing profession's most influential leaders, will be back on campus on Wednesday, February 21, to present a special campus-wide lecture at noon in HSW 303. She will discuss "Context for Action: National & Professional Issues in the 1940s for American Nursing." The lecture is sponsored by the new School of Nursing specialty, History & Ethics.

Coordinator of international students and visitors in the School of Nursing before retiring in 1982, Leone is a former assistant surgeon general. One of the few women in the world who holds nine honorary degrees, Leone is credited with helping to make major improvements in American nursing in the years after World War II, and helping to establish close ties between the federal government and the country's hospitals and nursing schools. She received the UCSF Medal in 1983.

Don't confuse this lecture with the annual campus lectureship in honor of Leone featured in the last issue of *Newsbreak*. (See inside calendar page 4 under Friday, February 16.)

Appointments

Wong

Brad Wong, director, annual giving. He is responsible for planning, coordinating and implementing all annual gifts to the Schools of Medicine, Nursing, Dentistry and Pharmacy, the Chancellor's Annual Fund and other programs. Replacing Susan Jacobson, Wong comes to UCSF from Clark University in Worcester, Mass., where he was director of annual giving and from which he received a BA and an MA in both geography and environmental resource management.

Gladstone's First Fulbright

The Gladstone Foundation Laboratories for Cardiovascular Disease welcomes its first Fulbright scholar, Richard Ceska, an internist from the faculty of medicine at Charles University in Prague, Czechoslovakia. He will be here through April to continue his studies on how to best treat hyperlipidemic patients. The Gladstone Laboratories will be celebrating their tenth anniversary on Monday and Tuesday, March 5 and 6. See full details in the next issue of Newsbreak.

A New Approach to Teaching Doctors

Shimon Glick, medical school dean at Ben-Gurion University of the Negev, Beer Sheva, (second from right) was on campus last week to discuss Beer Sheva's innovative approach to training doctors. Ben-Gurion's emphasis is to train doctors in community medicine and involve them early on in their studies with the patients and communities they serve. He is seen here with (left to right) Phil Lee, Institute for Health Policy Studies, co-sponsor of Glick's visit; Laboratory Medicine's Laurence Marton; and Medicine's Jay Nadel.

Chili Peppers *(continued)*

potential targets for drug therapy that someday could prevent recurrent outbreaks or even protect against infection.

"In the future we may be able to administer compounds that act on these nerve fibers to block release and transport of the virus, and thus prevent flareup," says Donald C. Payan, who headed the study. He warns, however, that people should not squeeze hot chili pepper juice in their eyes, as it is highly irritating and can seriously damage optical nerves.

● In a separate study, Paul D. Blanc and colleagues in the Division of Occupational Medicine found that workers regularly exposed to airborne chili dust at a packaging plant in Gilroy had lungs abnormally sensitive to capsaicin.

Blanc says they went in the plant looking for good effects of capsaicin, for example if people with chronic exposure would be less likely to have allergy symptoms, sinus infections, stuffy nose, etc., but "We didn't find this, though there were hints it's true," he says.

"We did find, however, that in terms of the cough reflex, some people seem to get more sensitive and others seem to get less sensitive." Blanc says that this suggests there is more than one factor to consider here, and that more work must be done to explain the findings and sort out the medical implications.

Distinction in Teaching Awards

Nominations are being accepted for the UCSF Academic Senate "Distinction in Teaching" Awards. Students and faculty are invited to submit names of any members of the Academic Senate who have been on the faculty no more than five years. A list of all eligible candidates has been sent to Senate members, department chairs, the ASUCSF and the GSA.

Nomination letters, describing outstanding teaching qualities, should be sent to the nominee's department chair, who then will add supplemental documentation and forward it to the Academic Senate Office, Box 0764, Room U 100H. All nominations must be received by Wednesday, February 28. For further information call Erlene at x64245 or Marie at x63808.

Today/Tomorrow

125th EVENT: UCSF COMMEMORATES BLACK HERITAGE MONTH

- Wed., Feb. 14: *Young, Black & Male in America: An Endangered Species.* Jewelle Taylor Gibbs, Social Welfare, UCB. Part of the Brown Bag Lecture Series. HSW 300. Noon-1 p.m. Call x64394.*
- Thurs., Feb. 15: *Sick & Tired of Being Sick & Tired: The Life of Fannie Lou Hamer.* SF State journalist Erna Smith looks at the life of the Mississippi sharecropper whose political activism challenged & transformed the US political system. Toland Hall. Noon-1 p.m.*
- Fri., Feb. 16: *Bantaba Drum Ensemble.* Five-member troupe to play traditional African drumming music from West Africa, Senegal, Gambia & the Ivory Coast. Presented by Arts & Lectures. MU Plaza Grill. Noon.*
- Fri., Feb. 23: *Health Care Crisis in the Black Community: Challenges, Prospects & the Black Nurse.* Keynote speaker Dorothy Powell, Howard U Schl. Nurs. Symposium to celebrate & inspire black nurses & to address crucial health care issues in the black community. Toland Hall. 9 a.m.-4 p.m. Call x64697 for information.*

10 Saturday

ANESTHESIA MORBIDITY & MORTALITY CONFERENCE. HSW 301. 8-10 a.m.

SURGERY GRAND ROUNDS: *Arterial Response to Injury.* Joe Rapp, Surg., VAMC. Followed by M&M conference. VAMC Aud. Bldg. 8:30-11 a.m.

WOMEN'S RESOURCE CENTER WORKSHOP: *Embrace the Void Within & Be Filled.* For people struggling with an eating addiction. Facilitated by Barbara Christwitz, formerly of the Landberg Ctr. for Hlth. & Ministry. C 130. 10 a.m.-4 p.m. $20-$35.*

12 Monday

BREAST CANCER SCREENING SCHEDULE

Women can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient locations in the Bay Area.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes and costs only $50. To make an appointment call 990-0459 or x62193 between 9 a.m. and 3:30 p.m.

The van will be at the following locations for the next two weeks:

- Feb. 12-16: Sunset district, on Irving St. between 25th & 26th Aves.
- Feb. 20-23 Embarcadero, on Drumm St. between Sacramento & Clay. (Feb. 19 is a holiday.)

OTOLARYNGOLOGY GRAND ROUNDS: *Clinical Aspects of ABR.* Carl A. Croutch, Oto. *Hearing Aid Fitting.* Toni Iten Will, Oto. S 214. 8-10 a.m.

VAMC NEURORADIOLOGY ROUNDS. Rm. 2A56. 8:30-9:30 a.m.

RETIREMENT PLAN PRESENTATIONS

The Office of Financial Planning/Benefits will give the following presentations on the UC retirement plans from noon-1 p.m.:

- Mon., Feb. 12: VAMC/Bldg. 7 Aud.
- Tues., Feb. 13: Hartsook Rm., CED.
- Wed., Feb. 14: Toland Hall.
- Fri., Feb. 16: Carr Aud., SFGH.

OVEREATERS ANONYMOUS MEETING: *The "H.O.W." Concept.* A more structured approach to over-eating. Speaker & discussion. N 417. Noon. Call Lia, x64251.*

OVEREATERS ANONYMOUS MEETING: Regular OA discussion meeting. N 717B. Noon.*

CORE CURRICULUM IN HEMATOLOGY: *Disorders of the Lymphoid & Monocyte Systems. Hodgkins & Non-Hodgkins Lymphomas.* Elaine Engman, Lab. Med. L 535. 2-3:30 p.m.

DEAN OF MEDICINE'S RESEARCH SEMINAR

Insulin Dependent Diabetes: New Developments in Biology & Treatment. John H. Karam, Med., Met. Res. Unit, Clin. Endo.; Douglas Hanahan, Biochem/ Biophys. HSW 300. 4-5:50 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *DNA Stemline Analysis in Human Tumors.* Bruce Allen Bach, Bechton Dickinson. L 535. 4-4:40 p.m.

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *The Import of Proteins into Mitochondria.* Gottfreid Schatz, U Basel. HSW 301. 4 p.m. Student lunch with speaker at noon in HSE 402. Sign up in S 962.

URORADIOLOGY CONFERENCE: Emil A. Tanagho & Hedvig Hricak, both Uro. M 1415. 5-6 p.m.

13 Tuesday

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Principles of Microsurgery.* Leonard Gordon, Ortho. Surg. C 701. 8 a.m.

SFGH PEDIATRIC GRAND ROUNDS: *Urethritis in Adolescent Boys.* Mary-Ann Shafer, Adol. Med. Carr Aud., SFGH. 8:30-9:30 a.m.

TRANSFUSION RESEARCH FORUM: *Flaviviruses: Review of the Literature.* Philip K. Lane & Joseph Romeo, both Trans. Res. Prog. L 535. 8:30 a.m.

PEDIATRIC NEURORADIOLOGY CONFERENCE. HSE 317. 9 a.m.

OB/GYN GRAND ROUNDS: *Of Hype & Healing: Physicians & Advertising of Women's Health Care.* Lawrence Nelson, Bioethics Consultation Group. S 1364. 9-10 a.m.

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

CURRENT ISSUES IN AGING LECTURE SERIES: *Social & Economic Implications of Alzheimer's Disease in the 21st Century.* Dorothy Rice, Social & Behav. Sci. LPPI Aud. 12:10-1 p.m.

SFGH GI MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

NEUROLOGY GRAND ROUNDS: *Clinical Studies of Brain Tumors & Dementia by MRS.* Michael Weiner, Med. & Radio., VAMC. S 664. 5-6 p.m.

WOMEN'S RESOURCE CENTER WORKSHOP: *Expressing Your Sexual Self.* Facilitated by Isadora Alman, writer, talk show host & counselor. C 213. 5:30-9 p.m.*

14 Wednesday

PLASTIC SURGERY GRAND ROUNDS: *Camouflage Therapy Intervention.* Victoria Rayner, Derm. Toland Hall. 7 a.m.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call coordinator Barbara Blakely, x61662.

DERMATOLOGY CONFERENCE: *Update on Viral Xanthomas.* Ilona Frieden, Ped. Derm. HSW 301. 8-9 a.m.

ENDOCRINE GRAND ROUNDS: *Extraglandular Estrogen Formation in Men & Roosters.* Jean Wilson, Endo., U Texas. M 1486. 8:30 a.m.

LOVE YOURSELF TO HEALTH

Love Yourself to Health. Activities & presentations on how to enjoy life more by living a healthier & more productive life. Sponsored by Volunteer Serv. 9 a.m. Must pre-register at x61196.*

ANATOMY SEMINAR SERIES: *A Role for Epidermal Growth Factor in Liver Regeneration.* Albert Jones, Anat. & Med., VAMC. HSE 1309. Noon.

BROWN BAG LECTURE SERIES: (See Black Heritage Month events.) HSW 300. Noon-1 p.m.*

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

NURSING IN THE NINETIES

Nursing in the Nineties: The Role of the California Nurses Association. Mary Foley, CNA president. Co-sponsored by the Golden Gate Nurses Assn., Region 12, CNA. N 517. Noon-1 p.m. Call Barbara Burgel at x64953 for information.*

ALCOHOLICS ANONYMOUS MEETING: All are invited. CED, 3rd fl., Rm. 300C. 12:05 p.m.*

PSYCHIATRY GRAND ROUNDS: *Forensic Psychiatry.* Herbert C. Modlin, Menninger Clinic, Topeka. LPPI Aud. 1-2 p.m.

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

PHYSIOLOGY/PHARMACOLOGY/CELL BIOLOGY/ ENDOCRINOLOGY SEMINAR: *Synaptic Vesicles & Their Relation to Vesicular Traffic in Non-Neuronal Cells.* Pietro De Camilli, Yale. HSW 300. 4 p.m.

SFGH GI MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

UROPHYSIOLOGY CONFERENCE: *Ultrasound in Urology.* Katsuto Shinohara, Uro. M 1415. 5-6 p.m.

PATHOLOGY GRAND ROUNDS: *Pathology of the Female Genital Tract.* Robert Brescia, Path. HSW 508. 5:30-6:30 p.m.

PHILIPPINES SYMPOSIUM

Children of War in the Philippines. Program includes the short documentary film, *Gabihin: Child of War,* followed by an update by human rights worker Jeanne Hallisey on children displaced by the civil war & human rights violations by the Aquino government. Co-sponsored by the Landberg Ctr. & Hlth. Educ. & Mobilization for Pilipinos (HEMP). N 517. 5:30 p.m. For information call 564-3515.*

15 Thursday

MEDICINE GRAND ROUNDS: *Androgen Resistance Syndromes.* Jean D. Wilson, Med., U Texas. Toland Hall. 8 a.m.

SFGH NEUROLOGY/NEUROSUGERY CONFERENCE. 4H2. 8-9 a.m.

PEDIATRICS GRAND ROUNDS: *Congenital Dysplasia of the Hip.* John Smith, Orth. & Ped. S 664. 8:30-9:30 a.m.

MORBIDITY & MORTALITY CONFERENCE. SFGH, Rm. 6D12. 8:30-9:30 a.m.

OPHTHALMOLOGY GRAND ROUNDS: *Immunology of Corneal Transplantation.* John Chandler, Oph., U Wisc. Preceded by case presentations: *Pathology.* S 214. 8:30-10 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Occupational Exposure to Cotton Dust.* Martin Barman, Occup. Med., UCSF Fresno. M 989. 9-10 a.m.

FAMILY & COMMUNITY MEDICINE/PRIMARY CARE LECTURE SERIES: *Approaches to Alcoholism.* Gerritt Blauvelt, Psychr.; David Smith, Int. Med. A 455. 10 a.m.-noon.

PEDIATRIC TUMOR BOARD. L 34. 11 a.m.-12:15 p.m.

MEDICAL ANTHROPOLOGY RESEARCH SEMINAR: *An Ethnography of an American Auto Assembly Plant.* Genevieve Ames, Prev. Res. Ctr. Laguna Honda School, Rm. 218, 1350-7th Ave. Noon-1 p.m.

ORAL BIOLOGY 220 SEMINAR: *Studies of Fc Receptors on Human Leukocytes.* Ira M. Goldstein, Med. S 664. Noon-1 p.m.

OPHTHALMOLOGY/PROCTOR RESEARCH SEMINAR: *Using the Polymerase Chain Reaction in Diagnosing Infectious Agents.* T.S.B. Yen, Path. S 318. 3 p.m.

NEUROBIOLOGY SEMINAR SERIES: *Activity Dependent Regulation of Neurotransmitters in Primate Cerebral Cortex.* Edward Jones, Anat., UC Irvine. HSW 300. 4 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

NEURORADIOLOGY GRAND ROUNDS. HSW 303. 4-5 p.m.

ORTHOPEDIC SURGERY STAFF CONFERENCE. A 630. 4-5 p.m.

PRIMARY CARE GRAND ROUNDS: *Asbestos Related Pulmonary Disease.* Jeffrey Golden, Med., Bronchoscopy Serv., Chest Sect. A 455. 4:30 p.m.

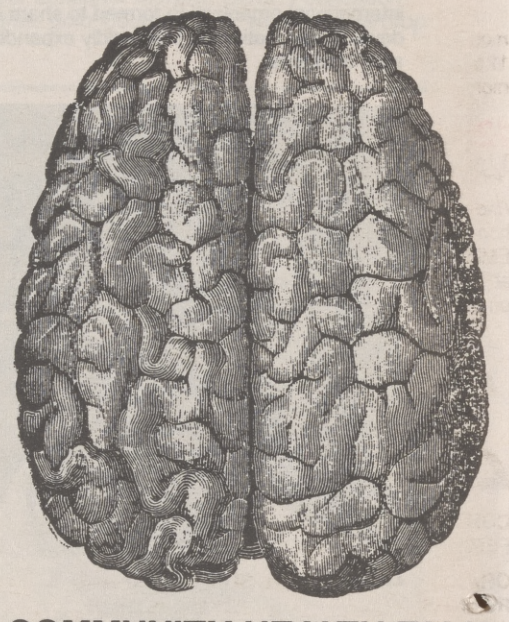
RADIATION ONCOLOGY GRAND ROUNDS: Journal Club. L 34. 5 p.m.

RADIOLOGY GRAND ROUNDS: *Non-Vascular Interventions in the Thorax.* Jeffrey S. Klein, Radio. HSW 301. 5:15-6:15 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5:15-6:30 p.m.

COLE HALL CINEMA: *Sea of Love.* Children under 14 $2; UCSF employees (today only), students, seniors & MU members $2.50; general $3. Cole Hall. 5:45 & 8 p.m.*

ALCOHOLICS ANONYMOUS MEETING: All are invited. LPPI A 222. 6 p.m.*



COMMUNITY HEALTH TALK

Understanding the Human Brain. Stephen M. Sagar, Neuro. HSW 300. 7-8:30 p.m. Free parking available.*

16 Friday

SFGH NUCLEAR MEDICINE/RADIOLOGY CONFERENCE. Rm. 1X58, SFGH. 7:45-9 a.m.

CRI HEMATOLOGY/ONCOLOGY GRAND ROUNDS. M 1296. 8 a.m.

COMMUNITY CLINICS 10TH ANNIVERSARY

UCSF employees at CED, SFGH and 20th & Harrison are invited to take advantage of dental screenings at no charge in celebration of the Community Dental Clinics 10th Anniversary. Appointments can be made for Buchanan Clinic by calling x65608 and for SFGH Clinic by calling x65692.

LEONE LECTURE: THE KOREAN FAMILY

Two Women Under the Same Roof: The Family in a Transitional Korean Society. The Lucile Petry Leone Distinguished Professor Susie Kim, Ewha Womens U, Seoul, Korea. Toland Hall. 9 a.m. (Also see Hardgrove Lecture Feb. 20.)*

CHILD & ADOLESCENT PSYCHIATRY CONFERENCE: *Today's Child Psychiatrist as Consultant to a Pediatric Service: Three Case Examples.* Heather Barrett, Child & Adol. Psychr.; Eugene Shatkin, Psychr. & Ped. LPPI Aud. 10:10-11:30 a.m.

PHARMACEUTICAL CHEMISTRY 221 SEMINAR. S 1364. 11 a.m.

REPRODUCTIVE BIOLOGY SEMINAR: *Target Antigens & Molecular Mechanisms of Pancreatic Beta-Cell Destruction in Juvenile Diabetes.* Steinunn Baekkeskov, Microbio. & Med., Hormone Res. Inst. M 1486. Noon.

PATHS OF HEALING & WHOLENESS SEMINAR: *Nine Styles of Communication.* Numerologist Carol Adrienne. N 721. Noon.*

COLE HALL CINEMA: *Sea of Love.* Children under 14 $2; students, seniors & MU members $2.50; general $3. Cole Hall. 6:30 & 8:45 p.m.*

Feb. 10-23, 1990

17 Saturday

ANESTHESIA MORBIDITY & MORTALITY CONFERENCE. HSW 301. 8-10 a.m.

SURGERY GRAND ROUNDS: *Cardiac Transplantation: Current Status.* Fraser Keith, Surg. Followed by M&M conference. Toland Hall. 8:30-11 a.m.

CONSCIOUSNESS IN SCIENCE FEB. 17 & 18

Study of Consciousness Within Science. An international conference featuring 15 eminent scientists, including two Nobel laureates: John Eccles, Switz. & George Wald, Harvard. UCSF's Benjamin Libet, Physio., to speak on *The Neurophysiology of the Conscious Experience.* Cole Hall. Call 753-8648 for registration information.*

LOW VISION FORUM: Father Harry J. Mack, Broadcast Services for the Blind, talks about the 24-hour radio station which brings books, magazines & other written material to those with low vision. A series of forums held on the first & third Saturdays of each month. Clinical Eye Res. Bldg., 374 Parnussus. 11 a.m.-1 p.m. Call Frances Neer at 626-5313 for more information.*

125th EVENT:
VALENTINE'S BANQUET

Rae's Dine with Your Valentine Extravaganza. In honor of Rae Beauregard-Sund. Sponsored by EMPACT! California Culinary Institute, 625 Polk St. at Turk. 6 p.m. Call x66932 for tickets. (See story on page 6.)*

20 Tuesday

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Mediators of Inflammation in Surgery.* Jan Horn, Surg., SFGH. C 701. 8 a.m.

TRANSFUSION RESEARCH FORUM: *Regulation of HIV Gene by T-Cell Signals.* Sandra E. Tong, Med. L 535. 8:30 a.m.

SFGH PEDIATRIC GRAND ROUNDS: *RSV.* Carr Aud., SFGH. 8:30-9:30 a.m.

PEDIATRIC NEURORADIOLOGY CONFERENCE. HSE 317. 9 a.m.

OB/GYN GRAND ROUNDS: *Urinary Retention & Voiding Dysfunction.* Nicolette S. Horbach, Ob/Gyn, SFGH. S 1364. 9-10 a.m.

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

CURRENT ISSUES IN AGING LECTURE SERIES: *Common Dental Problems & Their Management in Patients with Dementia.* Kay Shen, Dent. Pub. Hlth. & Hyg. LPPI Aud. 12:10-1 p.m.

REGENTS LECTURE

Medicine, Science & Sport. Sir Roger Bannister, Pembroke Coll., Oxford. Cole Hall. 2 p.m.*

EPIDEMIOLOGY/BIOSTATISTICS SEMINAR: *Risk Factors for Falls in the Elderly.* Jennifer Kelsey, Schl. Pub. Hlth. & Epid., Columbia. N 729. 4-5 p.m.

SFGH GI MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

CLINICAL ONCOLOGY CONFERENCE. M 1296. 4 p.m.

K. F. MEYER LECTURE

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *Molecular Genetics of Lymphocyte Differentiation.* Fred Alt, Biochem., Columbia. HSW 301. 4 p.m. Student lunch with speaker at noon in HSE 402. Sign up in S 962.

CAROL B. HARDGROVE LECTURE

Child Care in Korea. Susie Kim, Korean nursing leader & international expert on family issues. *Implications of Providing Child Day Care to a Multi-Ethnic, Multi-Cultural & Multi-Lingual Population.* Panel: Sylvia Buford, Meryl Glass & Norman Yee. Toland Hall. 4:30-5:30 p.m. Reception to follow at Marilyn Reed Lucia Child Care Study Ctr., 3rd & Parnassus.*

NEUROLOGY GRAND ROUNDS: *Laughing & Crying.* Roger Simon, Neuro. Serv., SFGH. S 664. 5-6 p.m.

FORUM ON RESIDENTS' HOURS REDUCTION LEGISLATION

Moderated panel discussion by proponents and opponents of the upcoming bill, which will try to limit the number of hours residents work to 72 hours a week. Panel to include: William Hamilton, Schl. Med.; William Bewley, Stanford; Elena Fuentes-Afflick, Ped., SFGH; Assemblywoman Jackie Speir, author of the bill. Sponsored by AMSA. HSW 301. 6 p.m. Call 386-4539 for information.*

21 Wednesday

PLASTIC SURGERY GRAND ROUNDS: *Nerve Entrapment Syndrome.* Thomas Huntsman, Plast. Surg. Toland Hall. 7 a.m.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call coordinator Barbara Blakely, x61662.

DERMATOLOGY CONFERENCE: *Antiphosphatidil Antibody Syndrome.* Wallace Epstein, Med. & R.W. Johnson Clin. Schol. Prog. HSW 301. 8-9 a.m.

ENDOCRINE GRAND ROUNDS: *The Luteinizing Hormone Receptor: An Unusual Member of G-Protein Coupled Receptors.* Karoly Nikolics, Genentech. M 1486. 8:30 a.m.

NURSING IN THE '40s

Context for Action: National & Professional Issues in the 1940s for American Nursing. Lucile P. Leone, former assistant surgeon general. Sponsored by History & Ethics, Schl. Nurs. HSW 303. Noon-1 p.m. (See story on page 3.)*

BROWN BAG LECTURE SERIES: *What's Happening to Mother Earth?* Joseph LaDou, Med. & Occup. Med. HSW 300. Noon-1 p.m. Call x64394.*

ANATOMY SEMINAR SERIES: *Neural Activity & the Development of the Visual Cortex.* Michael P. Stryker, Physio. HSE 1309. Noon.

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

ALCOHOLICS ANONYMOUS MEETING: All are invited. CED, 3rd fl., Rm. 300C. 12:05 p.m.*

PSYCHIATRY GRAND ROUNDS: *10 Cinematic Stereotypes Contributing to the Stigmatization of Psychiatrists.* Glen O. Gabbard, Menninger Clinic, Topeka. LPPI Aud. 12:30-2 p.m.

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

SPECIAL MEETING OF ACADEMIC SENATE/SF DIVISION REPRESENTATIVE ASSEMBLY. HSW 301. 3-5 p.m.

SFGH GI MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

UROPATHOLOGY CONFERENCE: *Pathology of Testicular Tumors.* Michael Cohen, Path. M 1415. 5-6 p.m.

PATHOLOGY GRAND ROUNDS: Resident Presentation. HSW 508. 5:30-6:30 p.m.

22 Thursday

MEDICINE GRAND ROUNDS: *Physiological Changes of Aging.* Itmar B. Abrass, Med., Geron. & Ger., U Wash. Toland Hall. 8 a.m.

SFGH NEUROLOGY/NEUROSUGERY CONFERENCE. 4H2. 8-9 a.m.

PEDIATRICS GRAND ROUNDS: *Childhood Obesity.* Lawrence Hammer, Ped. & ACC, Children's Hosp., Stanford. S 664. 8:30-9:30 a.m.

SAMUEL J. KIMURA LECTURE

Does the YAG Laser Help Us Understand Malignant Glaucoma? David L. Epstein, Mass. Eye & Ear Infirmary. Preceded by case presentations: *Uveitis.* S 214. 8:30-10 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Evaluation of Building Associated Illness & Sick Building Syndrome.* James Cone, Occup. Hlth. Clinic, SFGH. SFGH Bldg 30, 5th fl. 9:15-10:45 a.m.

CLINICAL PATHOLOGY CONFERENCE. HSE 317. 10-11 a.m.

FAMILY & COMMUNITY MEDICINE/PRIMARY CARE LECTURE SERIES: *Dementia.* Edmund Lonergan, Med. & Ger. *Irritable Bowel Syndrome.* Michael Darby, Med. A 455. 10 a.m.-noon.

PEDIATRIC TUMOR BOARD. L 34. 11 a.m.-12:15 p.m.

GERIATRIC GRAND ROUNDS: *Significant Oral Lesions in the Elderly.* Robert Mostovoy, Dent., Mount Zion. Herbst Hall, Mount Zion. Noon.

ORAL BIOLOGY 220 SEMINAR: *The Cytokine Biology of Murine Leishmaniasis.* Fred P. Heinzel, Med. & Infect. Dis. S 664. Noon-1 p.m.

NEUROBIOLOGY SEMINAR SERIES: *Molecular Determinants of Circuit Formation in the Brain.* Pat Levitt, Anat., Med. Coll. Penn. HSW 300. 4 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

ORTHOPEDIC SURGERY STAFF CONFERENCE. A 630. 4-5 p.m.

NEURORADIOLOGY GRAND ROUNDS. HSW 303. 4-5 p.m.

PRIMARY CARE GRAND ROUNDS: *Hypertension in the Elderly.* Itmar Abrass, Med., Geron. & Ger., U Wash. A 455. 4:30 p.m

RADIATION ONCOLOGY GRAND ROUNDS: *In Vivo Proton NMR Spectroscopy: Pitfalls & Promises.* Vernon Smith, Rad. Onc. L 34. 5 p.m.

RADIOLOGY GRAND ROUNDS: *Manifestations of* Pneumocystis Carinii *In HIV Disease.* Lisa S. Diethelm, Radio. HSW 301. 5:15-6:15 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5:15-6:30 p.m.

COLE HALL CINEMA: *The Fabulous Baker Boys.* Children under 14 $2; UCSF employees (today only), students, seniors & MU members $2.50; general $3. Cole Hall. 5:45 & 8 p.m.*

ALCOHOLICS ANONYMOUS MEETING: All are invited. LPPI A 222. 6 p.m.*

LIVING WITH HIV PUBLIC FORUM: *Conversations with People Living with HIV.* Panel discussion. CED, 1855 Folsom St., Hartsook Rm. 7-9 p.m. Free parking available. Call x66430 for information.*

23 Friday

SFGH MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H4, SFGH. 7-7:30 a.m.

SFGH NUCLEAR MEDICINE/RADIOLOGY CONFERENCE. Rm. 1X58, SFGH. 7:45-9 a.m.

CRI HEMATOLOGY/ONCOLOGY GRAND ROUNDS: *Abnormally Functioning Oncogenes & Receptors in Breast Cancer.* Chris Benz, Med. M 1296. 8-9 a.m.

PHARMACEUTICAL CHEMISTRY 221 SEMINAR: *Mechanism of Bioactivation of Nitrosamines.* Chung S. Yang, Biochem. Pharm., Rutgers. S 1364. 11 a.m.

REPRODUCTIVE BIOLOGY SEMINAR: *Retinoic Acid Receptors in Development & Differentiation.* Richard Heyman, Gene Expression Lab., Salk Inst. M 1486. Noon.

ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

PATHS OF HEALING & WHOLENESS SEMINAR: *Can You Talk Yourself into Happiness & Health?* Carole Morton. N 721. Noon.*

COLE HALL CINEMA: *The Fabulous Baker Boys.* Children under 14 $2; students, seniors & MU members $2.50; general $3. Cole Hall. 6:30 & 8:45 p.m.*

DEVELOPMENT & TRAINING

For further information call x64032.

Typing Instruction Via Computer. Mon., Wed., Fri., Feb. 12, 14, 16. 9 a.m.-11 a.m. $40.

Demystifying Computers & Introduction to Operating Systems. Tues., Feb. 13. 9 a.m-4:30 p.m. $50.

Retirement Planning Program. Wed., Feb. 14, 21, 28 & Mar. 7, 14, 21. 10 a.m.-noon. $10.

Managing a Culturally Diverse Workforce. Fri., Feb. 16. 8:30 a.m.-4:30 p.m. $20.

Writing the Winning Proposal. Wed., Feb. 21. 1-4 p.m. $20.

CONTINUING EDUCATION

MEDICINE
For program information call x64251, registration x65208 unless otherwise noted.

Bay Area Seminars in Cytopathology. UCSF. Through Mar. 1990.

23rd Annual Recent Advances in Neurology. Feb. 14-16. Fairmont Hotel, SF.

7th Annual Office-Based Sports Medicine. Feb. 17-24. Sun Valley, Idaho.

DENTISTRY
For further information call x61101.

Soft Tissue Diseases in the Practice of General Dentistry. Stockton Hilton. Feb. 15.

AIDS/ARC/HIV+ SUPPORT

Anonymous & confidential caring, support & training for people with AIDS or ARC, those who have tested HIV positive and others affected by the epidemic. Sponsored by UCSF AIDS Health Project. Call x66430 unless otherwise noted.*

Individual Risk Assessment & Referrals. By appointment.

Facilitated 8-week Groups. For anyone affected, at risk or infected.

Drop-in Group for the Recently Tested.

Positives Being Positive. Support groups in the community meet regularly. Call x63902.

Caregiver Training. Caring & self-caring skills for professionals & volunteers.

Living with HIV. Public forums every other month. (See Thurs., Feb. 22, 7 p.m.)

WOMEN'S RESOURCES

Sponsored by UCSF Women's Resource Center unless otherwise noted. Call x60400.

GROUPS
Ongoing noontime drop-in groups for women working or studying at UCSF.

Lesbian Lunch Group. C 213. First & third Mon. of each month.

Latin Women Coalition. N 517. Last Wed. of each month.

Circle of Sisters. Black women's group. L 535. Every Fri.

Support Group for Divorced & Separated Women. C 130. Tues., Feb. 20.

RAPE PREVENTION

Classes, workshops & support groups sponsored by UCSF Rape Prevention Program. Call x60400 for information.

Personal Safety, Rape & Assault Prevention Presentations. By appointment to campus departments & employees in the workplace.

Support Group for Sexual Assault Survivors. Twelve consecutive weekly sessions, 5:30-7 p.m. on a day to be arranged. $5-$25 sliding scale.

CRIME PREVENTION

Presented by UCSF Police Department Crime Prevention Program. Call x65683 for information & reservations.

Crime Prevention Presentations. By appointment to campus departments & employees in the workplace.

Tear Gas Classes. Department of Justice certified. Personnel Conference Rm., 1350-7th Ave. $12. Pre-registration required.*

CPR TRAINING

Basic CPR. A 3-4 hour course in basic cardio-pulmonary resuscitation sponsored by the UCSF CPR Center. For information & registration call x61817.*

CPR Road Show. Traveling CPR instruction by volunteer instructors sponsored by the UCSF Center for Pre-Hospital Research & Training. For more information call Denise, x65802.*

OUTDOORS UNLIMITED

Outdoors Unlimited is a cooperative resource center for outdoor recreation & adventure, serving both the UCSF campus & the general public. It provides skills training, equipment rentals, trip planning information & a place to meet others with similar interests. To receive a quarterly listing of trips & clinics, send a self-addressed, stamped envelope to Outdoors Unlimited, Box 0234A. For more information call x62078.

***Open to the public.**

Benefits/Personnel

How to Compute Your Retirement

If you've ever wondered what you can expect in terms of retirement income from the UC Retirement Plan (UCRP), check this chart. You can use it to estimate retirement income levels for various work scenarios, starting from retirement at age 50.

Your retirement income will be a percentage of your average salary rate, based on your age and years of service (service credit) at the time of your retirement.

The formula used to compute retirement income is: *Years of service* multiplied by *age factor* to get the *percentage of return*. Then *percentage of return* multiplied by your *average salary* to get the benefit.

The chart provides the percentage of return. Your average salary rate would be the average of 36 consecutive months of your highest salary. Usually this would be your last three years prior to retirement.

Okay, now let's try an example. Let's say you retire at age 57 with 20 years of service. Find 20 ("Years of Service Credit") in the left hand column. Now move to the right until you find age 57. You'll see the return will be 34%. Your benefit, therefore, would be 34% of your average salary rate.

Remember, this chart is designed as an easy reference, advises Mary Kahn from the Benefits Office. In reality, UCRP carries the calculations a bit further. But the chart lets you make a pretty good estimate.

Age at Retirement (and Age Factor)

Years of Service Credit	50 (1.09)	51 (1.16)	52 (1.22)	53 (1.30)	54 (1.38)	55 (1.50)	56 (1.60)	57 (1.70)	58 (1.80)	59 (1.90)	60 (2.00)	61 (2.13)	62 (2.27)	63+ (2.41)

MedPlus to be Terminated

If you are enrolled in MedPlus, please be advised that the University is terminating this plan.

The reason for the termination is that new federal regulations make the cost of the program outweigh the benefits for a large number of plan members. Thus, the final deduction for MedPlus will be reflected in February, 1990 earnings.

This means that for employees paid once a month, March 1 (bi-weekly: February 28) will be the final paycheck with salary reductions for MedPlus agreements. Participants will be permitted to claim reimbursements under the MedPlus plan to recover first-quarter 1990 contributions.

The systemwide benefits office is currently preparing a flyer with more information to send to MedPlus participants.

How to Get a Job

Qualified UCSF employees are urged to apply for open positions. Interviews are conducted on a drop-in basis during regular screening hours or by appointment. (For current screening hours or other job-related information, call x61645.)

The "Employment Opportunities" flyer lists current openings. The flyer is posted weekly in three locations: The main personnel office, the satellite office on the first floor at CED and on the second floor of Moffitt Hospital, west of the cafeteria.

The "Open Until Filled" list can be viewed at the main personnel office and the satellite at CED. Both lists are updated each Thursday.

Personnel is located at 1350-7th Avenue. Business hours are 8 a.m. to 5 p.m., Monday through Friday, and until 6:30 p.m. on Wednesdays.

Integrity in Research: Your Opinion?

Currently in circulation is a draft policy on "Integrity in Research." The policy responds to federal regulations established by the Public Health Service and the National Science Foundation. Circulation of the proposals constitutes a formal review, and employees in the A&PS Program and the Staff Personnel Policy Program should have the chance to review and comment on them. Questions or comments should be directed to Julius Katz, employee relations manager, by Tuesday, February 13—Box 0832.

Learn About the UC Retirement Plans

Next week the Office of Financial Planning & Benefits is offering a series of one-hour presentations on the UC retirement plans. All the discussions are scheduled from noon to 1 p.m. If you are unable to attend one of the following, look for another series to be scheduled in May and periodically thereafter.

- **Monday, February 12**—VAMC, Building 7 Auditorium
- **Tuesday, February 13**—CED Hartsook Room
- **Wednesday, February 14**—Toland Hall
- **Friday, February 16**—SFGH, Carr Auditorium

How Are the Funds Performing?

For those invested in the 403(b) Plan and the After-tax Plan, here are the latest unit values and monthly factors (as of December 31). If you have questions, please call x69256.

	Monthly Factor	Current Rate
Savings	.0068	8.00%
Money Market	.0068	8.00%
GIC	.0074	8.74%

	Unit Value	1-Month Change	12-Month Change
Bond	$39.36	0.2%	18.62%
Equity	$65.39	2.7%	26.98%

Promotions

Promotions are made available to this publication after they are processed by the Personnel Department.

Silva Alas, senior admitting worker, ACC registration.

Julie Alden, administrative assistant II, physiological nursing.

William Arafelis, laboratory assistant I, laboratory of radiobiology.

Kevin Barron, administrative analyst, hospital information systems.

Lais Batiste, personnel assistant II, radiation oncology.

Joan Baumgartner, administrative assistant II, radiation oncology.

Sheila Cook, custodian supervisor, recreation.

John Frank, administrative assistant I, hospital accounting.

Stephen Hom, hospital pharmacy assistant III-supervisor, pharmaceutical services.

Lori Hymowitz, administrative assistant II, pharmacology.

Patsy Jenkins, senior computer operator, HISD-computer services.

Maria Jimenez, principal clerk, ambulatory care center.

Theresa Kite, accounting assistant I, physiology.

Marjorie Krabbe, staff research associate I, medicine.

Frances Lee, personnel assistant II, personnel.

Rosalie Lum, clinical laboratory technology specialist, clinical labs/hematology.

Karen Murphy, library assistant II, library.

Elizabeth O'Boyle, administrative assistant III, Dean's Office, School of Nursing.

Noemi Ocampo, hospital unit service coordinator III, nursing.

Alfred Ortiz, hospital radiology assistant II, radiology.

Service Awards

Steven M. Abrams, 10 years, otolaryngology.

Patricia A. Anthony, 10 years, urology.

Virginia Arnone, 15 years, ambulatory surgery.

Joy A. Becker, 10 years, animal care, cell culture facility.

YiAnn K. Chou, 10 years, accounting office.

Debra A. Collins, 10 years, dentistry clinics.

Rita G. Douglas, 15 years, ob/gyn.

William S. Dwyer, 10 years, SFGH clinical labs.

Brenard Elston, 10 years, animal care, cell culture facility.

Anne M. Findlay, 25 years, nursing.

Helen C. Gitlin, 10 years, Fresno Medical Education Program.

Robert Guice, 15 years, respiratory care service.

Linda Hughes, 20 years, clinic blood flow lab.

Essie Jones, 20 years, nursing.

Leola Lowder, 15 years, clinical labs.

Michael B. Lyon, 15 years, biomedical engineering.

Elisea G. Macalma, 10 years, SFGH clinical labs.

Robert Mahon, 10 years, LPPI.

Diana R. Maitland, 10 years, student health service.

Vesta March, 15 years, radiology.

Matilde P. Martirez, 10 years, nutrition & dietetics.

Marianne McFarland, 10 years, nursing.

Lia L. Merlini, 20 years, Extended Programs in Medical Education.

Carrie V. Miller, 10 years, dentistry.

Sophie Mitchell, 10 years, surgery.

EMPACT!

Wine, Dine & Party: The Valentine's Banquet and 125th Black & White Ball

Two big fun festive events are looming on the horizon: The Valentine's Banquet at the Culinary Academy on Saturday, February 17, and the 125th Anniversary Black and White Ball on Friday, April 6.

The official name for the Valentine's Banquet is "Rae's Dine with Your Valentine Extravaganza" in honor of the late Rae Beauregard-Sund, an avid EMPACT! supporter.

The evening features a lavish buffet, decked with every imaginable gastronomical delight. Tickets are $35 each, available at the Millberry Union Central Desk. Again, you don't have to bring a Valentine. Just bring yourself, or organize a group. Questions, call x66932.

As for the 125th Anniversary Black & White Ball, better mark your calendar right now. This is your chance to get dressed up and spend a swanky evening at the Gift Center dancing to the music of Pride & Joy for a ticket price of only $10 a person in advance ($15 at the door). The idea is to make this an event everyone—staff, students & faculty—can attend and enjoy. Tickets are now on sale at the MU Central Desk. Watch for more news.

More events:

- **Sweets for your sweet.** See "Buy Your Valentine's Gifts Here" on page seven for the details on EMPACT!'s Valentine's sale.
- **Exhibit your art.** So far, many staff members have expressed interest in showing their work in the art show planned for Thursday and Friday, March 1 and 2. Don't get left out. A 125th Anniversary event co-sponsored by Arts & Lectures. Call x66761.
- **Ballet.** Saturday, February 17: The SF Ballet presents the Paul Taylor Dance Company. Friday, March 15: SF Ballet performs Sleeping Beauty. Discount tickets at MU Central Desk.
- **Rhythmisscity.** Eight-piece, multi-cultural, all-woman band will perform on Thursday, March 8, at noon, MU Plaza Grill. In honor of Women's Week, co-sponsored by the Women's Resource Center.
- **Stitch & Bitch Club** now meets every Thursday at noon. Call x66932 for more information.
- **Go skiing.** But check Outdoors Unlimited's downhill and cross-country ski deals first. Call x62078 for more information.
- **Watch whales** and elephant seals. Outdoors Unlimited has trips planned for February and March. Call x61469.
- **Donate a prize.** The second annual EMPACT! raffle is coming up in May. Prizes needed. If you have any hot tips on possible donors, call x66932.

Medsounds Continued

New Column: "Random Shots"

Beginning with this issue, "Random Shots" makes its debut in *Medsounds*. If people like it, the plan is to make it a regular column.

The idea is that each time we'll feature one or more people selected at random (or by suggestion) from Medical Center departments. The suggestion for the column came from the Managers Advisory Group (MAG), who thought it could help bolster our acquaintance with one another.

Thus, if there is someone you'd like to see featured—or if you personally would like to be featured—give *Medsounds* a call, x61541.

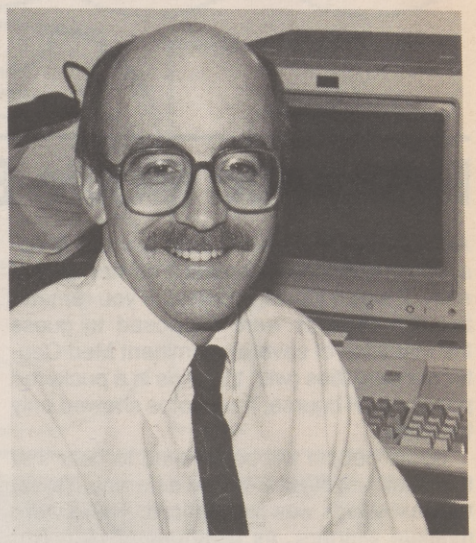
Since it's not always that easy to get to know people at the satellite locations, how about if we start with a couple of people from CED:

Susan Andrews

Position: Administrative Assistant III, Medical Center Accounting.
Years at UCSF: 3
Background: Grew up in Bountiful, Utah (near Salt Lake City), the second of five kids. Originally thought she'd become a neonatal nurse; ended up getting a BS in elementary education at Utah State, then teaching third and fifth grades in Preston, Idaho while husband (Joe Andrews) finished undergraduate work at Utah State. Moved to SF in 1986 so Joe could attend dental school at UCSF.
Personal: Lives in Aldea San Miguel (UCSF student housing) with Joe and 18-month-old daughter Lindsay. Is good with her hands: Paints designs on children's clothing and designs hair bows for children's boutiques in her spare time. And good with words: She edits the wise and witty "Finance News," the monthly newsletter put out by the Med Center Finance Department. She likes volleyball, baseball, a good bargain, Cafe Riggio, Robert Ludlum and listening to the Ramones. And candy bars.
More about Joe: He's a senior now, and student body president.

Steve Downs

Position: Assistant Controller, Medical Center Accounting.
Years at UCSF: 4
Background: Grew up in Greenville, South Carolina; first job was counting (parts at his dad's car dealership); went on to get a degree in management science from Duke University, worked two years in Washington, DC, at "Blimpies"—a submarine sandwich shop—and the Federal Home Loan Bank Board, got an MBA from Harvard Business School and then worked as a financial analyst at Ford Motor Company before moving to SF. In school he thought he'd be a politician.
Personal: Is a sucker for his daughters, four-year-old Annie and one-year-old Nora (and, of course, his wife—Marianne Balin, who directs the Education Unit at SFGH). His most valuable personal possession is his piano, which he wishes he knew how to play. Currently is learning to throw pots at the neighborhood clay studio. On Sundays, the family anticipates that he'll get up and make pancakes for everybody.
Biggest thing happening in job right now: Two big things—working with Jackie Kuhn on financing the Mount Zion capital program and working on a new payroll system "that will improve our ability to meet processing deadlines."
Comments: "I wasn't at the MAG meeting where they decided to suggest this column."



Calling All Managers to the Nursing Units

If you're a department manager or supervisor in the Medical Center, take note: The Management Rounds program is currently cranking up for the fourth year in a row. Administration's Rosanne Rappazini is taking sign-ups at x61405.

The way it works is that several two-member teams volunteer for management rounds for a period of three months. Ideally, the teams are made up of managers or supervisors who interact infrequently and are from different areas of the Medical Center. The team signs up for a particular nursing unit and then members alternate visiting patients on that unit every other week for the three months.

The program has all kinds of purposes. It's a learning experience for managers, a personal touch for patients, a chance for heretofore unaquainted managers to get acquainted (with one another as well as other staff), and the opportunity for an objective peer review.

One of the concerns in the past, says Rosanne, is that it was a little scary for a non-clinical person to go up on the floors and start visiting patients. Therefore, something new has been added to the program: an orientation provided by chaplain Rod Seeger and clinical nurse specialist Pam Minarik. These two experts will prepare participants to meet their experience with confidence.

Buy Your Valentine's Gifts Here

If you like to wait until the last minute to buy your Valentine a present, no problem.

On Tuesday and Wednesday, February 13 and 14, the Medical Sciences lobby is turning into a Valentine's shopping mall. Both EMPACT! and the Auxiliary will be selling all varieties of Valentine's gifts.

EMPACT! will be there both days from 11 a.m. to 1 p.m. selling big red roses, Joseph Smith truffles, fancy balloons and other gift items.

The Auxiliary will be there all day both days—8 a.m. to 5 p.m.—selling custom gift items by Top Hat Produce. Top Hat supplies a variety of chocolates and other edibles, plus a selection of containers. You choose your container, then what you want in it.

Along with the invitation to stop by the Valentine's sale, the Auxiliary would like to extend their thanks for supporting all their fundraisers last fall. Between the art sale, coat sale, Halloween sale, jewelry sale, holiday bazaar and Entertainment '90 books, they raised almost $10,000.

Meet the Director February 23

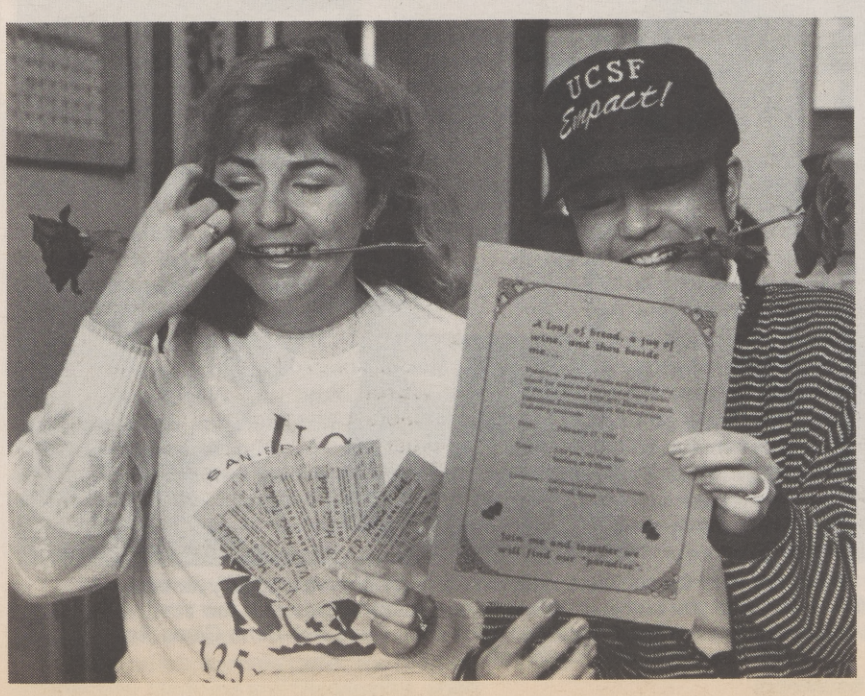
The next "Meet the Director" session is scheduled for Friday, February 23, from 8 to 9 a.m. in Room M 169. If you're interested in meeting with Med Center director Bill Kerr to discuss work-related issues of all varieties, call Gemma Rieser at x64846. The attendance is mostly by invitation, but there usually are four or five slots left up for grabs.

A Good Batch

This cookie-wielding nurse is 11 Moffitt's Barbara Greim, one of 35 "New Grad Survivors" recently honored at a party by that name. The party was the brainchild of the Med/Surg head nurses, who provided entertainment by telling stories from their own first year of nursing—such as taking a blood pressure and not getting a reading (because the belt was still tucked away in a pocket). "This was the first time we've done anything like this," says Nursing Education's Lynn Dow, who helped organize the event (and who, after 30 years as a nurse and 23 years here at UCSF, had some of her own stories to tell). "But it's not easy being a new grad, and they've done a good job. The recognition is well-deserved."

More Prizes for the Valentine's Contest *(continued)*

EMPACT! is donating four movie passes so you and your Valentine can go see a romantic movie or two. (EMPACT!'s Laurie Moberly and Gail Mametsuka managed to work a few other things into the photo—items they are featuring at their Valentine's sale, see article above.)



Moffitt Cafe & Grill has five frozen yogurts waiting for one lucky winner. Display models provided by (left to right) Sharon Alberto, Maxima Lirette, Marlene Legaspi, Mer Salinas and Thomas Miles.

UCSF Medsounds

Volume 5, Number 3 February 10-23, 1990

Romantic Movie Buffs: This Valentine's Contest Is for You

Admittedly, last year's first annual *Medsounds* Valentine's contest was not all that easy. It was a kissing contest, if you remember. Contestants were supposed to guess the identities of several prominent Med Center personalities (with their lips in a puckered position). Of course, the photos showed only their lips.

Some people will be relieved to hear that this year's contest is totally different. It's not that last year's was *that* difficult. There were multiple winners, as a matter of fact. But some of the photo subjects—Bill Kerr, for one—still can't believe they actually let themselves get roped into being one of the "lips."

So this Valentine's day, forget about people's lips and turn your concentration to romantic movies. Then circle your answers to the following multiple choice questions (one correct answer per question) and send this page to "Medsounds Valentine's Contest, Box 0462, by noon on Valentine's Day, next Wednesday, February 14. Or bring it to News Services, Room S 20. Be sure to include your name, department and extension, or how to reach you.

Since all the prizes are suitable for Valentine's gift-giving, the plan is to get them awarded before the end of the day on February 14. (If you're wooing somebody, you may want to consider whether or not five frozen yogurts could really melt a heart. Not that it isn't a fine prize. It's just that in this case, you may want to keep it for yourself.)

The Classics

1. In *Pal Joey*, Kim Novak sang "My Funny Valentine" to:
(a) Rudolph Valentino.
(b) Frank Sinatra.
(c) Mickey Rooney.
(d) Mel Gibson.

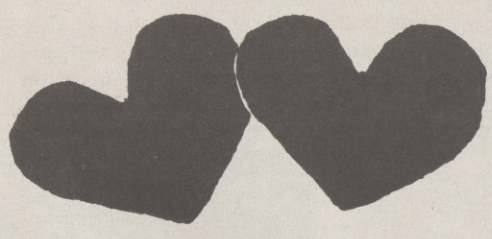
2. "You know how to whistle, don't you, Steve? You just put your lips together and blow."
(a) Lauren Bacall said it to Humphrey Bogart in *Maltese Falcon*.
(b) Lauren Bacall said it to Humphrey Bogart in *To Have or Have Not*.
(c) Katherine Hepburn said it to Spencer Tracy in *Adam's Rib*.
(d) Ava Gardner said it to Humphrey Bogart in *The Barefoot Contessa*.

3. In *Casablanca*, Humphrey Bogart and Ingrid Bergman have a favorite song:
(a) "As Time Goes By".
(b) "Love is a Many Splendored Thing".
(c) "Feelings".
(d) "Raindrops Keep Falling On My Head".

4. Rhett Butler's famous last words to Scarlett O'Hara:
(a) "I promise we'll get married as soon as I get a divorce."
(b) "Frankly, my dear, I think you've put on a little weight."
(c) "Frankly, my dear, I don't give a damn."
(d) "Tomorrow is the first day of the rest of your life."

5. Scarlett O'Hara's famous last line:
(a) "Love means never having to say you're sorry."
(b) "After all, tomorrow is another day."
(c) "I have but one life to live. Let me live it as a blonde."
(d) "If you don't have anything nice to say, don't say anything at all."

6. Katherine Hepburn and Humphrey Bogart fell in love on a boat called:
(a) Queen of the Nile.



(b) The African Princess.
(c) The African Queen.
(d) The QE II.

7. In the "Road" movies, Bing Crosby and Bob Hope have their eyes on:
(a) Dorothy Lamour.
(b) Jayne Mansfield.
(c) Ethel Kennedy.
(d) Shirley Temple.

8. After a year of separation, where did Deborah Kerr and Cary Grant plan to meet in *An Affair to Remember*?
(a) At the Met
(b) The top of the Empire State Building
(c) Golden Gate Park
(d) Coney Island

9. Who was Madame X?
(a) Dorothy Lamour
(b) Lana Turner
(c) Doris Day
(d) Brigitte Bardot

10. *Breakfast at Tiffany's* featured George Peppard, Audrey Hepburn, her cat named Cat and a famous song:
(a) "Moonlight Becomes You".
(b) "Moon River".
(c) "Moonraker".
(d) "By the Light of the Silvery Moon".

11. In *West Side Story*—a modern version of *Romeo and Juliet*—the Montagues and Capulets are represented by the:
(a) Barracudas and Spikes.
(b) Bombers and Fangs.
(c) Sharks and Jets.
(d) Hawks and Hummingbirds.

The Moderns

12. An ex-mermaid turned astronomer falls in love with a large-nosed firechief in:
(a) *Splash II.*
(b) *Roxanne.*
(c) *Cyrano de Bergerac.*
(d) *Benji.*

13. A rich young man and a 79-year-old woman, both funeral freaks, first meet when their eyes lock over a grave:
(a) *Mickie and Maude*
(b) *Bonnie and Clyde*
(c) *Harold and Maude*
(d) *Frankie and Johnny*

14. In *Gorillas in the Mist*, the love affair is between the apes and Sigourney Weaver, who plays:
(a) Jane Goodall.
(b) Dian Fossey.
(c) Margaret Mead.
(d) Bella Abzug.

15. In *The Unbearable Lightness of Being*, Tomas begins to betray his own code of lightness after he meets:
(a) the waitress Tereza.
(b) the artist Sabina.
(c) the photographer Francesca.
(d) the physician Lia.

16. Woody Allen and Diane Keaton attempt to cook a live lobster bent on survival in:
(a) *Manhattan*.
(b) *Oedipus Wrecks*.
(c) *Looking for Mr. Goodbar*.
(d) *Annie Hall*.

17. In *La Cage aux Folle*, the nightclub owner and his lover get upset when they learn that:
(a) the local women's club wants to feature their apartment on a home tour.
(b) an elderly aunt wants to come stay with them for six months.
(c) the nightclub owner's former wife wants to perform at the club.
(d) the nightclub owner's son intends to marry the daughter of the Minister of Moral Standards.

18. Loretta Castorini and Ronny Cammareri are the lovers played by:
(a) Cher and Nicolas Cage in *Moonstruck.*
(b) Anjelica Huston and Jack Nicholson in *Prizzi's Honor.*
(c) Michelle Pfeiffer and Matthew Modine in *Married to the Mob.*
(d) Al Pacino and Talia Shire in *Godfather Part II.*

19. Dudley Moore suffers from terminal yearning for Bo Derek in *"10"*, but he also has a girlfriend:
(a) Sandy Duncan
(b) Mary Tyler Moore
(c) Betty Buckley
(d) Julie Andrews

20. The view shared by Lucy Honeychurch and George Emerson in *Room with a View* is:
(a) Florence.
(b) Nice.
(c) the Thames River.
(d) the Seine River.

21. Harry originally met Sally:
(a) when they were next-door neighbors as kids.
(b) at the all-night supermarket.
(c) on a ride-share in college.
(d) in the elevator going to the top of the Empire State Building.

22. The 1989 musical comedy *Earth Girls are Easy* is about three extraterrestrials whose spaceship crashes in LA, and one falls in love with a (an):
(a) astronomer.
(b) astrologer.
(c) manicurist.
(d) starlet.

Insipid

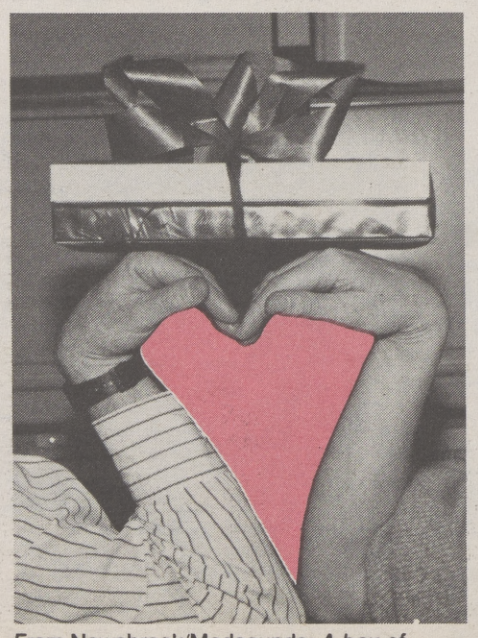
23. Brooke Shields was David's beloved Jade in:
(a) *Senseless Love.*
(b) *Endless Movie.*
(c) *Endless Love.*
(d) *Jaded Love.*

24. In *Blue Lagoon*, Brooke Shields and Christopher Atkins are
(a) seven-year-olds who get shipwrecked and grow up together in a state of moronic bliss on a Pacific Island.
(b) Southern California teenagers who go to school in the mornings and surf in the afternoons.
(c) childhood sweethearts who have to redo second grade.

25. *Love Story* left viewers with several wet handkerchiefs and the message "Love means . . .
(a) saying you're sorry even when you don't mean it."
(b) learning to say you're sorry."
(c) never having to say you're sorry."
(d) someday you'll be sorry."

The Prizes (More Prizes on Page 7)

The grand prize: The flowers of your choice (up to $40 worth) donated for the second year in a row by the ever-generous Ott sisters, proprietors of "You See Flowers." Since the prizes will be awarded on Valentine's Day, here's a chance to win a great gift for your sweetheart.



From Newsbreak/Medsounds*: A box of delicious truffles, also perfect for Valentine's gift-giving (or maybe more perfect to keep for yourself).*

From Med Center Administration: Ten movie rentals (ideally romantic films that you and your Valentine can watch together). A few title options are offered by (left to right) Ellen Campbell-Berti, Gloria Turk, Mark Pietrowski and Phyllis Hill.
